# WHAT'S YOUR STYLE?

## the Vision<sup>®</sup> blind collection

---

Vision blinds are an innovative window furnishing that feature two layers of translucent and opaque horizontal striped fabric that combine to create a striking modern feel. Our made to measure collection offers you the perfect range of fabrics and colours to help you to create your statement look.

PLEASE NOTE: Blackout fabric does not create a fully blackout blind because there will be lightstrike at the edge of the blind and between the fabric vanes.

# CONTEMPORARY stylish shading

Vision blinds combine the ideal balance of privacy and light control with the fashionable, eye-catching trend of bold stripes and colour blocking.

Easy to operate, a single control is used to slide the opaque and translucent woven stripes past each other. The same operation is used to raise or lower the window blind to any height in the window with ease, in the same way as the classic roller blind.

The front layer moves independently of the back allowing the stripes to glide between each other creating an open and closed effect, with limitless light control.

Sliding the fabric into a closed 'opaque-opaque' position allows full privacy and an impressive block of beautiful fabric at your window, whilst the 'translucent-opaque' position creates a stunning striped statement.

With Vision blinds you will enjoy the very best in quality, manufacture and design, along with the practicality of a low maintenance window blind.

## DRESSING UP your windows

Give your window blinds a stylish enhancement with one of our premium cassettes and matching bottom bars, available in a range of metallic finishes which add a luxurious finish to your blind.

Choose from 70mm full fascia cassette in black, white and anthracite grey or 32/40mm cassette in satin, chrome, bronze, black and anthracite grey to add a little personality to your blind and also co-ordinate or contrast with your room decor.

Our colour co-ordinating bottom bars incorporate self-centralising patented technology that helps keep fabric clear from obstructions to avoid fraying.
