*Country Blinds and
Shutters Ltd*

Blinds

ALLUSION BLINDS

Allusion blinds are a unique type of window furnishing that combine the features of curtains, vertical blinds and voiles. They're made from a light-weight fabric that allows light to filter through, while still providing privacy. The horizontal panels of fabric hang from a track at the top of the window and can be adjusted to control the amount of light and privacy you want.

PERFECT FIT BLINDS

Perfect fit blinds are typically made out of a lightweight, durable material that can be easily customised to fit your window frames. One of the best things about perfect fit blinds is that they're very sleek and unobtrusive- they fit snugly into the window frame, so they don't take up any extra space.

INTU BLINDS

Intu blinds are a modern and innovative window furnishing that are perfect for those who want a sleek and minimalist look in their home.

PLEATED BLINDS

Pleated blinds are an elegant and stylish way to add some privacy and light control in your windows. They're made out of lightweight, durable material that can be easily customised to fit your window shape. One of the best things about pleated blinds, is that they are versatile- they can be used to create a variety of different looks, from a sleek and modern vibe to a more traditional and cozy feel. They're extremely easy to use, since you can adjust them to let in as much or as little light as you want.

ROLLER BLINDS

Roller blinds are a sleek and modern window furnishing that are both practical and stylish. They can be a blackout material and can be customised to match any decor.

They are a great choice for those who want a minimalistic look and feel in their home. They are versatile and can be used in any room. They are particularly well suited to modern and contemporary interiors.

VENETIAN BLINDS

Venetian blinds are a classic window furnishing that are both stylish and functional. They consist of horizontal slats that can be adjusted to control the amount of light that enters a room. The slats are typically made of wood, metal or plastic (depending on which you choose). They are connected by cords that allow them to be raised or lowered. When the blinds are fully closed, they provide complete privacy and block out all light.

When they are partially open, they create a beautiful dappled effect as the light filters through the louvres.

Soft Furnishings

CURTAINS

Curtains can add a lot to a room. They can be long and flowing, or short and sophisticated.

They can make a room feel cozy and inviting or they can add a touch of elegance.

Curtains are a great way to add some personality to a space with many different colours and patterns available.

ROMAN BLINDS

Roman blinds are a classic and elegant window furnishing that are perfect for those who want a soft and sophisticated look in their home. They consist of a single piece of fabric that is pleated when raised and lies flat when lowered.

Roman blinds are both functional and stylish and are a popular choice for bedrooms and living rooms, but can be used in any room of the home. With a wide range of fabric, patterns and colours available, they can be customised to match any decor.

Outdoor Shading

AWNINGS

Available in a wide range of fabrics, colors, and designs, our awnings are crafted from high-quality materials that are durable and weather-resistant, guaranteeing long-lasting protection from the sun and elements.

With the addition of motorised options, extending or retracting your awning is made effortless, providing convenience and ease of use at the touch of a button.

EXTERNAL ROLLERS

External roller blinds are a great way to add some privacy and protection to an outdoor space. They're typically made of durable, weather-resistant fabric that can stand up to the elements.

They come in a range of colours and patterns. They're versatile - you can use to block out the sun, create some shade and to add some additional privacy.
